A Leading Induction Heating Machine Manufacturer

About The Company

We take this opportunity to introduce ourselves as “Hitech Induction” which is a technology Driven Company with Long Experience in the Field of Induction hardening and control automation.

Hitech Induction has successfully established it self as a manufacturer and exporter of Induction Hardening, Brazing, Heating, Billet heaters, PLC Base Mechanical Scanner and other Machines with cooling system from the last Many years, Currently our company markets its goods in almost all corners of the Country and also good market share Internationally. Our credentials speak for themselves. We have executed assignments for some of the most prestigious names across every sector of Industry.

Hitech Induction customer profile ranges across sectors such as : heavy machinery manufacturers, consumer durables manufacturers, Auto industries etc. We can proudly claim to have satisfied the widely varying needs for good quality Induction Machines of our selective customer base.

Today Hitech Induction is a dynamic & professionally managed Company with a pyramidal corporate structure. The Company has a base of over 5000 combined product installations of Induction Hardening Machines, brazing, Induction billet heater and cooling systems.

PRODUCTION FACILITY

Further consolidating its prominent position as a leading manufacturer of Induction Hardening Machine, the company has set up a manufacturing facility at the plot No 12, Daultabad Industrial Area Dwarka expressway gurgaon-122006 near Delhi. The plant incorporates contemporary production, quality control, & management methodology. The factory also houses a fully equipped Reaearch & Development facility where our engineers continuously endeavor to bring to our valued customer top-of-the line, reliable & quality products besides providing customized Induction related Solutions. Considering the feedback from users, our engineers also strive to upgrade our existing product range. We look forward to serving your Induction hardening needs and solicit your enquiries in this regard. As a first step toward this end, we request you to kindly empanel us as a vendor for Induction Hardening solutions.

Quality

our unique position as a globally recognized brand is based on the ability to manufacture product which offer precise and efficient performance are durable and come with advanced technological features. Time and again, We have introduced innovative products in the market and thus brought a new revolution in the industry. The secret behind this undisputed leadership of our company lays in our stringent quality control policy. Besides manufacturing products of flawless quality, we also stress upon innovative through continual research. in our factory each and every product is made to go through a series of quality checking measures at every stage of productions. In addition, our reswarch team always deeps itself engaged in fending out ways to elevate the quality standard of our products further, and thus deliver products of unmatched quality to our valued clients.

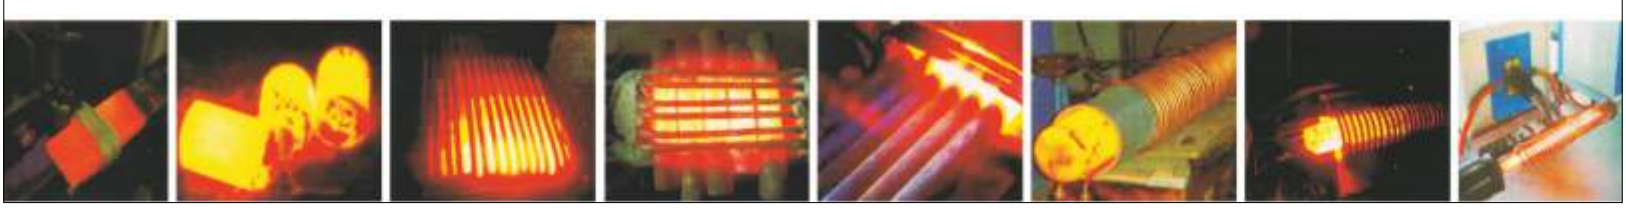

We would like an opportunity to do business with you. If you have any specific requirements please do let us know, We assure you of complete satisfaction. Thanking you & assuring you of our services at all times & hoping to do business with your esteemed organization, we are. Sincerely yours.

Advantage with HITECH INDUCTION machines.

1. Low electricity consumption, less breakdwons & effective machines.
 2. Service support is our strength.
 3. More than 15 service engineer all over india, 8 service engineer specially for NCR.
 4. AMC & maintenance services for all type of machines.
 5. Quick support on phone / on site as compare to other companies.
 6. All critical spares are available ready stock of all make machines in very low prices.
 7. More than 5000 machines in India with 24 hour emergency support.
 8. All solution under one Roof (Heating unit, PLC/CNC system, cooling system, mechanical, electrical, electronics. etc...)
 9. Regular training for company maintenance department.
 10. Complete range of induction heating machine
 11. Technical support for critical component
 12. service support for other make machines.....
- & more.....

Application Examples

Our Client

APPLICATION FIELD

	<p>TRUCKS Adjust Screw, Axles, Break Shoes, Differential Housing, Different Variety of Forks Engine Valves, Multi Cylinder Crankshaft, Multi Cylinder Camshaft, Push Rods Rocker Arm, Shaft, Starter Ring Gears.</p>
	<p>TWO WHEELERS Camshaft Crank, shaft (Half), Clutch Box Chain sprocket, Connecting Rod Web, Annealing Gear Primary Driven, Main Shaft</p>
	<p>CARS Camshaft, crankshaft, CV Joints, Heat-Plug Quench Synchro Parts Pinions, PTO Shafts Shafts (all Types) Sleeves, Steering Rack Piston Rods, Tie Rods, Misc. other parts</p>
	<p>TRACTOR & EARTH MOVING EQUIPMENT BullGears, Bush, Carrier Roller Shaft, Gears Idlers, Links, Pins, Sprockets, Track Rollers</p>
	<p>OTHERS Heating for Hot Forming, Brazing of Rotors & Motors Spindle & Fluted Rollers for Textile Machines Piston Rods of Hydraulic Cylinders, Turrets Race Rings, Piston Rods for Shock Absorbers</p>
